

About Power-Con Electronics Corporation

Power-Con Electronics Corporation (PCEC) was established in 1997. Since then, we become a leading power electronic product provider to customers in Commerce, Telecom, Communication, Industry, Medical and Military.

Power-Con Headquarter is located in Taiwan with a sales office in Japan and US. Our manufacturing site is at Taoyuan City, Taiwan which is ISO certified and RoHS compliant. Moreover, PCEC is the vendor of Military Power Supply approved by Taiwan Government.

Our standard products including:

Power Supply Unit (PSU):

- ▶ LED systems: traffic signal lamps / illumination devices / display board.
- ▶ Telecom / Communication systems: VCS / BEX-VPX / ATM / ADSL / IP network / Security communication.
- ▶ Commercial systems: set top boxes, cash register / POS systems, IPCs for ATM System.
- ▶ Industrial Equipment: factory controllers / power amplifiers.
- ▶ Medical high voltage instruments ranging from 10 Watts - 400 Watts / 150 VDC - 10K VDC.
- ▶ Special Military applications that meet Mil-Spec for Radar, Rugged PC, communication, missile launching systems.

Battery Chargers:

- ▶ Lead-Acid battery
- ▶ Ni-Cd battery

PCEC

Power-Con also offers low cost OEM and ODM. Besides PSU and Battery Chargers, our engineering experience includes design for wide range input, power factor correction, multi-outputs, Mag-Amp Regulator, Constant Current Mode, High Current Output, High Voltage Output, Hot Swap, Redundancy with Automatic Load Sharing, Fault Isolation...etc.

Whether it's a standard or custom design, Power-Con is committed in delivering the most innovative, reliable and cost-effective power supply solution to meet the needs of world-class companies. Making Power-Con is **"Your Excellent Power Solution Partner" !!**
